## **Press Release**

### **Eliksir Gin picks up awards in its first year at the 2022 Australian Gin Distillers Awards.**

Release Date: 4 October 2022

Neil and Robbie Ladbrook, the owners of Ladbroken Distilling Co. are celebrating after receiving Bronze medals for their Signature Dry Gin and Berryliscious Gin last week.

“It was a real thrill to open the mailbox and find out that two of our gins had been awarded medals at Australia’s premier gin distillers awards.” Said Robbie, the gin crafter behind the couple’s Eliksir Gin range.

“We have only been producing for 14 months now and our first gin released was our Signature Dry Gin which was awarded the Bronze medal in the Classic Dry Gin category.

“Our special Berryliscious Gin also took out a Bronze medal in the Flavoured Gin Category. I think it was the unique flavour from the handpicked wild blackberries mixed with locally grown raspberries and blueberries that rest on the gin for several months that really makes it a winner, both at the awards and with locals.

It’s a great way to celebrate and recognise all the passion and hard work that goes into crafting our products both at the distillery and of course the work of the local growers who provide the fruit.

You can taste the entire range at the distillery, online or from local stockists in the Snowy Valleys.

Visit [www.ladbroken.com](http://www.ladbroken.com) for more information and bookings.
